### Important Information

Workload indicated above is the minimum study time you need to put in to complete the course. To meet the assessment due dates you need to study approximately 10 hours a week.

### Course Information

This course looks at the many aspects of kitchen and laundry design for efficiency and it will show you how to plan without compromising on the character of the home. There are 10 design activities in this course designed to enhance your learning.

## You can do this course as part of these qualifications

- **Diploma in Design and Decorating (Level 5)**

## Assessment and exams

Within these two assessments you will be required to consider kitchen and laundry spaces and create successful schemes including the layout, appropriate material selection, lighting and colour.

The course runs for 12 weeks from your start date. The time you need to complete your studies will vary depending on your own knowledge and experience. As a guide it could take you approximately 10 hours a week to complete the course within the 12 week time frame.
